By Telegraph to The Times.

WASHINGTON, March 27.—|By the Associated Press.] The President today sent the following nominations to the Senate:
Robert T. Lincoln of Illinois to be Minisr to Great Britain. Murat Halstead of Ohio to be Minister to

Patrick Egan of Nebraska to be Minister mas Ryan of Kansas to be Minister to

to Peru.
George B. Loring of Massachusetts to be
Minister to Portugal.

THE NOMINEES. Sketches of the Men Who Will Rep-

resent Us Abroad.

Washingron, March 27.—[By the Associated Press.] Murat Halstead, nominated for United States Minister to Germany, was born in 1820, at Ross, Butler county, O., and speat his minority on a farm. At 13 he began writing for newspapers, at hist contributing the lighter class of romances. In 1851 he finished his schooling at Farmers' College, near Cincinnati, and then did local newspaper reporting on several Cincinnati papers. In 1853 he became manager of a department on the Cincinnati Commercial, and the following year he acquired a small interest in the paper. When the Commercial was combined with the Gazette, the Cincinnati Commercial-Gazette immediately became the recognized organ of the nd spept his minority on a farm. At 13 he sence, a genial manner and immensergy. He has always been a Republican

presence, a genial manner and immense energy. He has always been a Republican of a very pronounced type.

BOBERT TOOD LINCOLN.

Robert Todd Lincoln, son of Abraham and Mary Lincoln, was born in Springfield, Ill., August 11, 1843, was prepared for college at Phillips Exeter Academy, and graduated at Harvard in 1864. He entered Harvard Law School, but after a short stay applied for admission to the military service, and his father suggested his appronument on the staff of Gen. Grant, as a volunteer aide-de-camp, without pay or allowances. This exceptional position did not meet with Gen. Grant's approval, and at his suggestion young Lincoln was regularly commissioned as a captain and entered the service on the same footing with others of his grade. He served with zeal and efficiency through-out the final campalgin, which ended at Appomatox. At the close of the war he resumed the study of law, was admitted to the bar in Illinois, and practised his profession with success in Chicago until 1881, with an interval of a visit to Europe in 1872, He steadily refused the offers that were repeatedly made him to enter public life, though taking part from time to time in political work and discussion. In 1881, at the invitation of President Garfield, he entered the Cabinet as Secretary of War. Mr.
Lincoln, who, sixteen years before, had returned from the field just in time to stand by the death-bed of his father, assassinated while President now had this strange experience repeated upon the assassination of President Garfield, a few months after the resident Garfield, a few months after the resident Garfield, as few months after the resident on the accession of Vice-President Arthur to the Presidency, Mr. Lincoln was the free Garnay and Allen Thorndyke the resident of the Presidency, Mr. Lincoln was the first of the resident of the president of the president

PATRICK EGAN.

Patrick Egan. the nominee for Minister
to Chill, for many years has been wellknown as a leader of the Irish people. He
was born in Ballymahan, county Longford,
Ireland, in 1841. When quite young he
went inte the grain business. His business
relations brought him into contact with a
great mass of people and he very early displayed deep interest in the Irish cause, becoming an active member of the advanced
National party. He took part in the revolutionary movement which culminated in
the attempted insurrection of 1867. He was
one of the organizers and a member of the
Council of the Home Rule League formed
in 1871. When Davitt, in 1879, started his
land-league movement Egan, together with
Joseph Biggar and William H. O'Suillyan,
member of Parliament, became trustees of
the league, and the work of the league in
propagating its principles and helping
evicted tenants, in 1880, led to the prosecution of Parnell, Dillon, Sexton, Egan
and others. The prosecution failing to
secure conviction, the English Government
suspended the operation of the habeas corpus act, and also advised a scheme to selze
the funds of the League. At the urgent
request of the leaders of the movement,
Egan went to France in order to protect the
money entrusted to his care, also to act as
an intermediary between the branches of
the League in America and Australia and the
National Leaguers in Ireland and England,
In 1882 he returned to his native country,
but fearful of oppression and unfair treatment on the part of the Government of
Great Britain, he in 1838 came to America
and went to live in Nebraska, where he
has since resided. He has been engaged in
the grain trade while in this country, and
has also taken an active part in politics as a
member of the Republican party: Mr. Egan
is still an active worker in the Irish cause,
and has the confidence of its leaders in the
old country.

JOHN HICKS. old country.

John Hicks, who will go to Peru, as Minister of the United States, is a native American, 42 years of age. He comes from Oshkosh, the home of Senator Sawyer, and is the proprietor and editor of the Oshkosh Northwestern. He has several times been elected president of the Wisconsin State

Press Association, but has never before held a public office.

held a public office.

ALLEN THORNDYKE RICE.

Allen Thorndyke Rice, nominated to be Minister to Russia, was born in Massachusetts. He is a graduate of Oxford University, England, and since 1876 has been editor and proprietor of the North American Review. He also holds a controlling interest in a prominent Parisian newspaper, Le Matin, and has contributed largely to literature, while taking an active part in politics.

GEORGE BAILEY LORING. GEORGE BAILEY LORING.
George Bailey Loring of Massachusetts is best known because of his connection with the Department of Agriculture, of which he was Commissioner from 1881 to 1893. He is 79 years of age and is a Harvard graduate. Loring has been long in public life, beginning as surgeon in the marine hospital to Chelsea in 1843 and at other times being postmaster, centennial commissioner and Congressman.

Thomas Ryan of Kansas, who has been named as Minister to Mexico, is a native of New York, and was born in 1837. He served during the war as a volunteer, was severely wounded, and emerged as captain. Since that time he has beld various legal positions in Kansas, and has been Representative in Congress in six successive Congresses.

JAMES O. CHURCHILL. James O. Churchill, the new Surveyor at St. Louis, entered the war as a private in the Eleventh Illinois Infantry, and rose to

the rank of colonel. He was severely wounded in an engagement, and still car-ries several bullets in his body. For many years past he has been United States Com-missioner and Clerk of the United States District Court at St. Louis. HOW LINCOLN RECEIVED THE NEWS. HOW LINCOLN RECRIVED THE NEWS.
CHICAGO, March 27.—Hon. Robert T.
Lincoln, whoa informed by a reporter this
afternoon that he had been nominated by
the President for Minister to England, and
asked if he would accept, said: "I shall
consider the matter. I shall consider my
business interests carefully, but what those
interests are I do not care to make public."

LOUISVILLE (Ky.), March 27.—[By the Associated Press.] Regarding President Harrison's diplomatic appointments Mr. Watterson will say in temorrow's Courier-Journal:

OTHER PRESS OPINIONS.

OTHER PERSS OPINIONS.

NEW YORE, March 27.—The Sun will say tomorrow: "The appointment of Robert Lincoln to be Minister to England will be popular in this country, and we dare say it will give satisfaction to the mass of Englishmen. He is likely to prove a better Minister than we have had in England since the late Charles Francis Adams."

PHILADELPHIA, March 27.—The Press will say: "A modest, dignified diplomatic man of high character, and undoubtedly possessor of reserve force which has not yet been called out, Robert Lincoln, to say nothing of the distinguished name he bears, is eminently qualified in every respect to represent the Government of the United States at the Court of St. James."

Government leader, with much emotion referred to the death of Bright. He said he would postpone his remarks on Bright until Friday, when Gladstone would be present. Morley thanked Smith for his consideration in regard to Gladstone.

Bright represented the Central Division of Birmingham in the House.

The funeral will take place on Saturday. The interment will be in the Quakers' burying-ground at Rochdale. The ceremony will be as private as possible.

The soulptor Bruce Joy has taken a cast of Bright's face.
Political deputations will follow the funeral. Only personal friends will be admitted to the meeting in the house. At political meetings throughout the country this evening sympathetic references were made to Bright.

Mr. Chamberlain writes: "By Mr. Bright's death we have lost the meet unique figure among English statemen and popular leaders of the present generation. The consistency and completeness of his career and the massive simplicity of his character mark him out from all others. Now, having fought his last fight, his death is a universal loss to both party and country."

London papers comment feelingly, and

VICTORIA IN SPAIN. The Queen Pays a Visit to San Sebas-

SAN SEBASTIAN (Spain), March 27.—
[By Cable and Associated Press.] Queen Victoria paid her expected visit to San Sebastian to-day. Her Majesty was accompanied by Prince and Princess Henry of Battenberg and members of her suite, including Lady Churchill. Sir Francis Ford, British Ambassador at Madrid and representative of Queen Regent Christina, met the royal visitor at Irun on the frontier, where a train was waiting to convey Her Majesty to San Sebastian. Upon arrival of

Victoria's suite.

Luncheon was served at the castle and shortly before 4 o'clock the whole party reentered carriages and were driven to the town hall, where a sumptuous throne had town hall, where a sumptuous throne had been erected. Here Victoria formally re-ceived the mayor of the town. Her Majesty afterwards witnessed a series of Basque dances and games.

When the entertainment was concluded

minister to France could have been found in any walk of life than Whitelaw Red and a life than John C, New. Now we have Murot Halisted to Germany and Allen Thorndyse Rice to Russia. Mr. Rice is editor of the North American Review, a man of many accomplishments and large fortune, whose knowledge of European life and affairs is very great and has not been obtained by secrifice of Americanism. The selection of Mr. Halstead for Berlin is a particularly happy one. He is already known togline Germans. In the France-German war he was companion and guest of Von Moltke. He met the crest Chancellor familiarly and will appear nowhere without distinction. The rest of the appointments are all in the same line, particularly that of Patrick Ezan, which at this moment must be very gratifying to the Irish on both sides of the water.

Washington, March 27.—[By the Associated Press.] Secretary Blaine has received a report from the Consul of the United States at Colon, staring that the work along the Panama Canal has entirely ceased, and that the West India negroes are returning to their homes. Up to March 16th, fully 5000 of the latter had already left. The Consul reports great depression in business. The Panama Railroad Company is suffering from a crisis, owing to the loss of local traffic. Two unsuccessful attempts have been made to burn Colon.

The Fire Commissioners.

The Board of Fire Commissioners met at 10 o'clock yesterday morning, with Mayor Hazard presiding and Messra. Kuhrts, Keefe, Lovell and

Marsh present.

After the reading of the minutes of the previous meeting, Mr. Kuhrts moved that only the members of the

board, press reporters and persons having business with the board should be admitted during the meeting. Agreed to.

Mr. Marsh moved that it was the sense of the board that the proposed reduction of salaries by the Council was not to the best interests of the department.

Mr. Kuhrts moved that the clerk be instructed to send a communication to the Council, requesting it to put the salaries at the same figures as those previously paid. Agreed to, only Mr. Lovell voting no.

The pay-roll and other bills were presented, audited and ordered paid.

number now being disabled, and Mr. Marsh moved that the Council be requested to purchase one horse, which was agreed to.

The following applications for positions in the department were received and placed on file: Frank Watson, driver; A. Morton, engineer; M. Handley, call man; Fred Nessler, hosecart driver; E. A. Clarke, assistant electrician, and John A. Baggett, driver.

Mr. Kuhrts called attention to the fact that no provision had been made by the Council for an electrician. This, he said, was an absolute necessity, as the fire alarm would be useless without one, and he hoped that this oversight would be remedied. On motion the clerk was instructed to embody this item in his communication.

Mr. Lovell moved that the changes recommended by the Chief be made.

There was some talk over this motion, after which the official guillotine was set to work, Mr. Lovell officiating as chief executioner. The first victim was H. G. Gray, driver of the Templestreet engine, Mr. Lovell moving that he be dismissed.

There was some further talk, and Mr. Kuhrts moved that S. A. D. Springer be transferred to Temple street engine, Mr. Lovell moving that he be dismissed.

There was some further talk, and Mr. Kuhrts moved that S. A. D. Springer be transferred to Temple street; that B. W. Trowbridge be put in at the Ninth-street house as driver, and that in place of Gray, dismissed. Edgerly be appointed.

This was not satisfactory to the other members of the board, and the usual debate followed. Mr. Kuhrts then changed his motion so that Trowbridge was put in No. 5 as driver, Springer on the hook and ladder truck as driver, in place of Gray, dismissed, and Edgerly as driver of Engine No. 7, in place of Gray, dismissed. This disposition of the men appeared to be satisfactory all round, and the motion was unanimously adopted.

Mr. Lovell moved that H. Wiatt, engineer of Engine No. 2, be dismissed and that W. E. Staermer be appointed in his place. Carried.

After some further talk of a general nature the board adjourned until the nex

A meeting of the Police Commission had been called for 2 o'clock, and a few minutes after that hour Mayor Hazard and Messrs. Furrey, Lindley and Knox rs. Furrey, 1 put in an appearance. Mr. Bilderrain was delayed, and at 2:30 o'clock the meeting was called to order without

meeting was called to order without him.

The minutes of the meeting of March 23d were then read and approved, Mr. Bilderrain came in just as the reading was concluded, and the regular business was then proceeded with.

Mr. Lindley suggested that the members of the commission should meet promptly at the hour decided upon, so that no time should be wasted. All of the other members expressed themselves in the same vein, after which it was unanimously agreed that the hour should be put at 2 o'clock, and that if a quorum was present at that time business should at once be proceeded with.

Mr. Furrey suggested the propriety of having every man appointed on the police force examined by a competent medical board. He said that, so far as he had heard, this was considered the proper thing to do in all large eastern cities, such as New York and Chicago, and he did not see why it would not work satisfactorily here. In answer to questions, Mr. Furrey said that he did not mean that all the applicants should be examined, but only those passed upon by the board—that is, the men could be appointed conditionally, and if the medical examiners passed them, they could not chase a thief half a block, and this sort of thing should not exist. He thought the men should pay a fee of \$2.50, and suggested the names of Drs. Davis, Cochran and Choate as the examining board. Mr. Furrey also submitted specimens of the blanks in use in the Unicago and New York departments.

Mr. Bilderrain moved that the matter go over for one week.

The Mayor thought that those selected should be avamined by the standard and the applications.

Mr. Bilderrain moved that the matter go over for one week.

The Mayor thought that those selected should be examined before they are finally appointed, but that they should not be put to any expense, as there were several other expenses that had to be incurred, such as buying uniforms, etc. He thought the City Physician and his assistant could make the necessary examination, and after some further debate the matter went over.

after some further debate the matter went over.

The secretary read the applications for transfers of saloon licenses presented by Fred Bees to Hollenbeck & Germain, No. 5 Franklin street, and J. F. Katt & Co. to Ed Germain, No. 104 East Fifth street.

Mr. Furrey asked whether they were for the same places, as the board did not wish to allow any more saloons, when the secretary stated that they were, but that they were not in regular form.

adjourn to 2 b'clock, Saturday afternoon, when the appointments for the ensuing year would be announced.

This was something of a surprise to those present, as it was expected that the appointments of at least the captain, sergeants and clerks would be announced, but the motion prevailed by a unanimous vote, and the members dispersed.

It is said that the majority of the officers have already been selected, but that several caucuses will be held before the entire list is finally approved. Mr. Bilderrain carried the list home with him yesterday afternoon, and will probably sit in judgment on the Democrats who wish to stay. It is not known what proportion has been assigned to the minority, but the knowing ones seem to think that they will not get more than the law allows.

The other case was before Judge McKinley, sitting in Judge Cheney's court. This was the case of Mrs. L. Stoddard against her husband. She is a pretty little woman, and told a story of shameful neglect on the part of her husband. The charge was failure to provide, and it was shown in testimony that he is a worthless fellow, whose principal occupation for some time past has been to make the partner of his joys and sorrows a miserable and unhappy woman. The court, after hearing the evidence, granted a divorce. It was not resent.

In the meantime people will talk, and
there are quite a number of very interesting stories afloat, some of which, it
is said, will be substantiated by affidavits whenever it becomes necessary.
For instance, it is said that Mr. Lindley
went into the Police Board to further
his interests in connection with the
proposed Reform School, which, it is
claimed, he wants to have located at
the town of Whittier, where he
has large lauded interests. It is also
claimed that Mr. Lindley wanted to
get his brother on the Board of Health
and his cousin appointed as Sealer of
Weights and Measures, and that his
failure to accomplish these objects, to a
certain extent, influenced his action.

In regard to Mr. Burns and the opposition of the Tribune to his appointment as Chief of Police, that gentleman's friends say that the Tribune
people wanted him to buy \$1500 worth
of their stock, paying \$500 in cash and
the other at six and twelve months.
Mr. Burns, it is claimed, said he could
not see the wisdom of such an investment, and declined with thanks, whereupon both he and the Mayor were

His friends denounce the scheme as

a divorce suit which will probably bring to the surface several sensations was gotten under headway. For some weeks past a young couple have been living in a prominent boarding-house on Main street. The husband is a well-to-do mining man, and has been connected with eating-houses on the line of the railroad. Soon after he and his wife (who is quite young and pretty) took up their quarters in the house the other roomers noticed that things were not going on as smoothly as they should. The husband was in the habit of coming home drunk, and when in that condition he would abuse his wite, who is in delicate health.

About a week ago he struck her several times, and threatened to cut her heart out with an ugly knife that he carried.

She then left the room, and the landlady gave her another room on the next floor. The next day the man was sober, and the couple made up and she returned to the room.

Things went a little better for a few days, when the husband again got on the warpath, and the abused wife went to the Hollenbeck to get away from him.

Day before yesterday he went home in a beastly state of intoxication, and his wife made up her mind to keep out of his way, so she went to the landlady's room for protection, and as she was quite sick from the treatment 'she had received during the preceding days she was put to bed in the landlady's room. As soon as the husband sobered up a little he went down town, and did not return home until after 12 o'clock night before last.

He went straight to his room, and when he did not find his wife he immediately got it into his head that she had gone to the room on the upper floor that she had occupied when he threatened to cut her heart out. The room had been rented to a young man who has been in the city but a short time. He was sound asleep and when he heard the angry hubby thumping away on his door he thought his last day had come, and in a trembling voice he cried out: "Who's there?" This caused the drunken husband to think that his wife had a man in the room with her, and that it will be done at the proper time.

So far Mayor Hazard has the best of the situation, as the public think he has something on which to base his assertions, or he would not dare make them, in view of the fact that if they can be disproved it would put him in a very awkward position, to say the least. He himself says that all he wants is for the people to have a little patience, and at the proper time such disclosures will be made as will open their eyes to a great many things that are now in the dark.

Manager Conried played Monday night in one of Fiske's houses at Fresno, and now he is threatening to have Fiske arrested on a charge of obtaining money under false pretenses. He claims that Fiske met him in San Francisco and induced him to play in his house, guaranteeing him \$650. There was only \$415 in the house, and Fiske refused to pay the difference. It is doubtful whether Conried has legal grounds for a criminal charge, but he may be able to recover in a civil action. already out in a twisted form, she unbosomed herself and told a most pitiful story.

She stated that she was married to the man about two years ago in Arizona. Soon after they were married she learned that her husband was a drunkard and a morphine fiend.

"I have stood his treatment as long as I can, and now that he has deserted me I intend to apply for a divorce. He is worth a good deal of property, but has left me destitute, and I don't know what I shall do. My health has been destroyed on account of his brutal treatment, and I don't know what I shall do. I have just received a note from him saying that he is going east, and I don't suppose I shall ever see him again," and the poor little woman broke down. The husband is related to a Democratic politician of Alameda county, and is a good man when he lets morphine and whisky alone, but the habit has taken such firm hold of him that there is no hope for his recovery.

The suit is to secure judgment against the defendants on two promissory notes for \$3500 each, which were given to plaintiff by them, and which have never been paid. The notes are secured by land in the Ro Santiago de Santa Ana.

Florian Borel began suit against John P. Santiorn of Michigan on promissory notes. There are two notes upon which the suit is based, each for \$9700. The amount of judgment asked is \$9700, and interest on \$19,400, the total amount of the notes. The notes are secured by \$14 agrees of land in section 35, township 2 south, range 11 west.

Mr. Ames entered suit against W. W. Buckingham on a promissory note for \$400.

The West End Board of Trade held its regular meeting last evening at the usual place, with President Register in the chair.

The secretary was instructed to draw up a petition to the Council, asking to have fire alarm boxes located, and to place an electric light in front of the Temple-street engine-house; a petition to the Fire Commissioners to have a fire hydrant located at the corner of Pearl and Boston streets.

A preamble and resolution asking to have Pearl street from Temple to Second graded at once was adopted, and ordered forwarded to the City Council.

THE BROCK CASE.

Motions for a Non-suit Denied-To

Bottons for a Non-suit Denied—To
Be Renewed Todry.
The Brock land case now being
tried before Judge Van Dyke, in the
Superior Court, reached one climax
yesterday. It was not resumed until
afternoon, the Court being occupied with other cases during the
morning. When it was taken up, it morning. When it was taken up, it was supposed that the plaintiff's counsel would continue their introduction of testimony. But the first serious tug of war in the case arose when Mr. Campbell of Los Angeles and Judge Bicknell moved for a nonsuit and proceeded to argue at length the propriety of throwing the case cut of court. Mr. Campbell asked for a non-suit on general grounds. He urged that when A. D. Brock claims a one-fourth interest in 704 acres in the Palos Verdes rancho, at San Pedro, by reason of an agreement he had with John W. Pearson of San Francisco, he is making an absurd claim. That the evidence introduced does not bear him out in his claim, and that the Court should summarily dispose of the whole matter.

does not bear him out in his claim, and that the Court should summarily dispose of the whole matter.

Judge Bicknell placed his plea for a non-suit upon other grounds. He said that he represented the defendants in the case other than Pearson, the Southern Pacific Railroad Company, the San Pedro Water, Dock and Land Company, and the San Pedro Railroad Extension Company. These defendants bought land from Pearson and were innocent purchasers, without notice. He did not think whatever the arrangements between Pearson and Brock were, that the rights of those he represented were affected by them. The Judge argued that, taking the case as presented by the plaintiff himself, and admitting the state of facts as Brock alleged, he could not see on what grounds his clients can be held responsible in this case. The arguments of the gentlemen lasted until 4 o'elock in the afternoon, and when concluded, Judge Van Dyke shut off Mr. Brosseau of counsel for the plaintiff, saying that he did not care to hear from him.

The Court then at some length re-

ing that he did not care to hear from him.

The Court then at some length reviewed the arguments which had been made, denying both motions for nonsuits. He said that while he believed it was possible that Judge Bicknell's defendants might not be responsible, or have their rights affected by the relations existing between Brock and Pearson, still he had doubts about the matter, and would be obliged at this time to deny the motion for a nonsuit, or to strike out any of the evidence that had been offered by the plaintiff. Some of the lawyers in the case were quite nervous, weaving case were quite nervous, weaving around the controom until the point was ruled upon.

After the decision the court adjourned until this morning, when the case will be resumed.

THE BUNCO TRIO

The complaints against the "bunco" men were filed yesterday in Justice Lockwood's court, and the examinaion will take place at 1:80 o'clock this afternoon. Two charges have been made by the District Attorney against them. In one, James Hood, James White and Frank E. Rose are charged with "criminally conspiring to cheat and defraud;" in the other, the same and defraud;" in the other, the same persons are charged with "winning at play by fraudulent means." In the first charge, Justice Lockwood held the men in bail of \$1000 each; in the second charge, he held them in bail of \$2000 each, making the total bail for each \$3000. When it came to fixing up the bail bonds a curious state of things took place. It was announced that Rose and "Poker" Davis would go on James White's bond; that Rose and C. F. Webber, otherwise known as "Big" Webber, would be on Hood's bond, and that for Rose's bond Webber and Ed McGinnis would be the sureties.

sureties.

The bondsmen make a very distinguished coterie. The next thing was to discover their financial solidity and qualifications as bondsmen and it must be admitted that they showed up in pretty good shape. Frank E. Rosadena in pretty good shape. Frank E. Rose swore that he had a lot in Pasadena for which he paid \$5700, and it is un-incumbered; a house and lot No. 1005 for which he paid \$5700, and it is unincumbered; a house and lot No. 1005 Ninth street, which cost him \$4105; a lot in Garvanza and 24 lots in Anaheim. Webber showed up a half interest in 140 scres in Butte county, for which he had recently been offered \$175 an acre, a lot in Santa Monica near the Arcadia Hotel for which he paid \$2500. McGinnis swore to a half interest in a house and lot at the corner of Sixth and Main streets worth \$15,000, but which is incumbered with a mortgage and homestead entry. The Court, in accepting the bonds with the sureties named, said that the two first were evidently good bondsmen, but he would not take McGinnis longer than to-day, when, if the accused are cheld, new bonds will be required. District Attorney Kelly has taken particular pains in framing the complaints, and will make a strong effort to hold the slippery gentry.

The complaining witness, Mr. Haskins, will be on hand, and there are ten or twelve other witnesses, including the proprietor and proprietress of the Crystal Palace, where Rose had his rooms. The accused will make a desperate effort to escape from the chains that have tightened areund them.

Night before last one of the boldest burglaries that has been chronicled for some time took place in the residence of J. Redman, one of the memdence of J. Redman, one of the members of the Los Angeles Marble Company. The thieves got into the house by prying open a window, and they worked so carefully that they succeeded in going through every room in the house, and then made their escape without awakening anyone. They broke open every trunk in the house, and scattered things about at a great rate. Mr. Redman does not know as yet how much boodle the thieves got away with, but they captured almost everything of any value in the house.

The train was deliberately pulled across the street and stopped, although a number of vehicles were in sight on either side, the train men proceeding with their duties, and apparently rather enjoying seeing men turned back. This crossing is also very dangerous, from the fact that the track cannot be seen from the south side on account of the trees, and no flagman is stationed there. It is probable that the Council will take some action in this matter, as several hundred teams pass by there every day.

Signing Warrants.

The Mayor put in his spare moments yesterday signing warrants. Under the new charter, where every separate item has to be put in in the shape of a separate "demand," which must be signed by the Mayor, it will take the entire time of one man to do nothing but affix the necessary signatures. It is a cumbersome method at best, and will doubtless give rise to much inconvenience:

Dr. Morrison, the new police surgeon, could not be got, and Dr. Choate was called up, who promptly responded, administered restoratives, and attended to the man's injuries. His case was continued from time to time. He secured a change of venue from Justice Austin's court to Justice King's court, and the case hung fire.

Along toward the end of the year another charge of a similar nature was made against Powelson, and he was arrested a second time. Again he procured a change of venue from Austin's court to King's court, and his case came up just after the first charge which had been so long pending was dismissed by Justice King.

The fresh case against Powelson was among those turned over by Justice King when he retired from office, and is now before Justice Lock-wood, who proposes to settle it if he can. Counsel for Powelson yesterday asked an indefinite continuance of the case, on the ground that there was a case pending in the Supreme Court which would settle the law for all these "mac" cases, and he thought it would be decided at the April term of the court which would shortly be held in Los Angeles. There is no water available for washing at the placers, and it is necessary to carry the dirt some distance to pan it. John Bright, the great English Rad-

Bright was a plain man, a man of the people, who had spent his early days among the looms. He won his way into national prominence at a time when it was not so easy for men to rise from the ranks as it is at present. His voice was always heard on the side of the masses, though he was by no means a demagogue. An exam-ple of this was furnished shortly after the death of the Prince Consort, when, during an acrimonious debate regard-ing royal privileges, an advanced Rad-ical referred in uncomplimentary terms to the Queen, whereupon Bright arose and in his own inimitable manner delivered an eloquent eulogy on Victoria as a wife and mother, for which he was afterwards personally thanked by his sovereign, who ever since held him in high esteem.

Few English statesmen have more claim upon the sympathy and respect of Americans than Bright. He was a firm and consistent friend of this country at a time when the United States had few friends in England.

As an orator, the deceased stateman was second to none. Those who have heard Bright, Gladstone and Disraeli in the House of Commons will not hesitate in conceding the palm to the great Rochdale commoner.

John Bright was a credit to the An glo-Saxon race and America shares with Great Britain his loss.

DISTINGUISHED VISITORS.

The wild and woolly West is being remarkably favored in the shape of visits by high-strung and aristocratic representatives of the eastern upper crust. Only the other day the Herald gave us full particulars of the arrival in this frontier village of a Bosting millionaire and family in his special car, with cooks and waiters and etceteras galore. We were duly impressed with the advantage to Los Angeles and the loss to the Hub of the presence in this outpost of civilization of a magnate who had first introduced in this country the English fashion of having a liveried flunkey behind each guest at swell dinners.

Scarcely have we had time to re-cover from the shock of the presence f such distinguished visitors, whe the same steamed contemporary makes our heart flutter and our nerves quiver by the following startling announce ment:

ment:

Dr. Leonard Webb, who is on his way to this city, is, as already stated in the Herald traveling in first-class style. Further particulars show that he has a traveling bath room, holding 600 gallons of water, and special nursery department for the children Including servants, there are 25 in the party, and they will remain in this section about a month.

The only doubtful point in this nar ation of sumptuous living is the siz of the water supply. The coarse and brutal Californians will be apt to insinuate that a family which need such a vast amount of washing must be very dirty; but then this is probably only a variety of "culchah." Anyhow, we ought to be proud to welcome a millionaire with two dozen attendants and a 600-gallon traveling aquarium—that is to say bathroomeven if he were a blackamoor. The circus which is billed for the 11th of next month will be quite eclipsed by

ADVERTISING METHODS.

The New York Tribune has been interviewing a number of the leading dry goods merchants of that city, on 19." The country at large will approve to President's choice of Robert T. incoln as Minister to Great Britain. The selection was not entirely unexpected, Washington papers received aring the past few days having contined rumors of such a choice. Mr. incoln has shown that he is somening more than the "son of his sther." He will represent this pourty in a worthy and acceptable inner at the Court of St. James.

REFERRING to the President's proclamation on the Bering's Sea question, the Boston Journal says:

the Boston Journal says:

It seems to be generally agreed that to open Bering Sea to vessels and hunters of all nations indiscriminately would result in the speedy extermination of the fur-bearing seals which now abound there. As it is obvious that our pretentions to sovereignty in these waters can be maintained only with difficity, if at all, would it not be well for our Government and people to consider whether the protection of the seals—an object of great commercial importance—could not best be accomplished by means of an international convention?

M. WHALING, "of the Board of Edneation," has favored the public, through the columns of the Express, with an erudite and interesting description of a visit paid by him to the public school on Sand street, where he

played by the little ones in singing. Now, indeed, is the local Democracy justified of its children—that is to say of its child, of its only child, M. Whaling, who was saved like a brand from the burning at the late election. What though the turning of Mr. Whaling's phrases indicate that his previous visits to a school, in any capacity, have been few and far between-that is surely a small matter, in a Democrat. and is more than counterbalanced his skill in ferreting out juvenile talent. Mr. Whaling's able communica tion has certainly improved his chance for the Mayoralty.

OKLAHOMA LANDS.

The President's Proclamation Open ing Them to Settlers.

WASHINGTON, March 28.—[By the Associated Press.] The President's proclamation opening Oklahoma lands to settlemen clated Press.] The President's proclamation opening Oklahoma lands to settlement on the 22d of April next was issued today. The proclamation, after setting forth the terms of the treaties for the cession of these lands by the Indians to the Government, and acts of Congress relative to epening them to homestead entry, describes these lands minutely by metes and bounds, reserves two acres for Government use, then formally declares that under these condition these lands will be opened to homestead entry at noon of April 22d next.

All persons are warned that under the terms of the act of Congress any person who shall occupy any of said land before the time mentioned shall be forever debarred from making entry thereon, and officers of the United States, are hereby required to strictly enforce this act.

The following is a description of the boundaries of the territories included in the proclamation: Beginning at a point where the degree of longitude 98 west from Greenwich, as surveyed in the years 1858 and 1871, intersects the Canadian River, thence north along and with said degree to the point where the same intersects the Chmarron River, thence up said river, along the right bank thereof.

Penalties Against Naval Contractors

Penalties Against Naval Contractors for Tardy Work.

WASHINOTON, March 27.—[By the Associated Press.] Secretary Tracy has ordered the ninth payment to be made on account of the Petrel, a small gunboat now being constructed at Baltimore. The total amount of the payment would have been \$24,700, in made up of \$18,000 on account of the hull and \$6700 on account of the hull are reservation of 10 per cent. Is made until the vessel is accepted, and in addition penalties have been deducted for the delay in construction beyond the contract time, which, taken together, reduced the amount of the ninth payment to \$10,230. The contract time, which, if allowed, will in effect whee out or reduce the penalties. Action upon the application is likely to be taken in a day or two. The contractors have pleaded in extenuation of delay the loss of time on account of steel deliveries, which was caused by the action of the Government inspectors.

which was caused by the action of the Government inspectors.
Secretary Tracy is considering the entire subject of the penalties which have accrued, not only in the case of the Petrel, but upon nearly all of the vessals constructed or begun under the last Administration. He has been furnished with a statement showing the exact condition of each vessel and the probable time required to complete those unfinished. He has the action of Secretary Whitney in granting extensions of time to contractors as a precedent, and should he disagree with his predecessor as to this the contractors will doubtless appeal to the next Congress for relief.

CAUCUS CONCLUSIONS.

Discussion of Election Outrages at this Session.

WASHINGTON, March 77.—|By the Assosciated Press.] The Republican Senators held a well-attended caucus today, prior to the meeting of the Senate. Of the subjects under consideration on a way with reference. under consideration one was with refto putting all clerks on the annua
payment to be made out of the cont

favor of doing this, but the question

give Senator Vance of North Carolina a personal clerk. He has lost one eye and the sight of the other is failing, and his Republican colleagues deemed it only just that he should be spared the necessity of using his remaining eye to conduct his official correspondence. It was also finally decided not to continue the debate on southern election outrages. The general opinion, so far as expressed, was that the Senate might resonably expect to be able to adjourn on Wednesday or Thursday of next week.

Dempsey Eager for a Battle With Reagan-Weir and Murphy Preparing for a Mill.

MINNEAPOLIS, March 27.—|By the Asso clated Press.] Needham and Gilmore fought eight miles from this city at 4 o'clock this morning. Gilmore was knocked out in the twentieth round.

the twentieth round.

From the start it was plain that while Gilmore was the most scientific he lacked in the hard-hitting qualities that finally gave Keedham the fight. In the twentieth round Gilmore received a terrific thump in the neck and went down like a log. He managed again to face the victor, but down he went sagain from a vicious left-hander in went sagain from a vicious left-hander in Indian waters, commanded the ship. The

the threat—this time not to rise until too late and Needham had won the battle. It was a good fight and hard won.

For the first ten rounds Needham did all the leading, getting in most of the heavy blows which were pretty well distributed over Gilmora's face, neck and body, while Gilmora's facen, neck and body, while Gilmora's facen, neck and body, while

heavily. No dangerous work had been done so far, and no kneckdown had occurred, thought each had been forced to the ropes.

In the eleventh round Gilmore did the first leading, and from that to the eighteenth pushed the fighting.

In the nineteenth Needham began rushing, and there was a lively interchange. Gilmore acted on the defensive.

In the twentieth round he had two eyes in mo urning and was badly winded. Dannie's right eye was badly swollen, but that was about all. He was in good condition. Needham forced the fighting from the start and rushed his man all ar ound the ring. Finally his opportunity eame and he landed on Gilmore's neck, and the latter went to the floor. Just before time was called Gilmore staggered to his feet, but was groggy and almost done for. Needham rushed him savagely, knocking him flat in his own corner. Gilmore lay there 15 seconds, and the fight was awarded to Needham. Two hundred sports were present. The fight was conducted in a very orderly manner. It was for a purse of \$400, with skin gloves.

DEMPSEY AND REAGAN.

New Yolkk, March 27.—Jack Dempsey, talking to a reporter, said today: "I am going to attend to Johnny Reagan's case on Thursday. I'll go the Police Gazette office and see if he can't be induced to make a match for \$5500. If we can't agree on the amount of the stake, I'll fight Reagan for \$1000 a side before either of the California athletic clubs if they will give a purse of \$2000 or \$5000 to the winner. That ought to suit my young friend, and there should be no trouble in getting the California or Golden Gate Athlette Club to put up such a purse, as they would make plenty of money out of the show. I'm going to California soon, anyhow, and Reagan has been talking of going to San Francisco for some time. Now there's the chance of his life. To show how anxious I am to fight Reagan for any amount worth trying for, I would be willing to meet him under Marquis of Queensberry rules. I can beat him as easily that way as under the fight began a friend of Reagan told my friends

THE RAILWAYS.

Northern Pacific Directors Meeting NEW YORK, March 27.—[By the Associated Press.] The board of directors of the Northern Pacific held a special meeting at the offices of the company this morning, for the purpose of taking action on the proposed agreement, with the Wisconsin Company posed agreement with the Wisconsin Cen-tral Railroad. The board adjourned, after tral Railroad. The board adjourned, after a brief session, without taking action, at the request of the Executive Committee, which, notwithstanding the long session yesterday, could not complete the report on the subject which it desired to submit. After the adjournment of the board, the committee went immediately into session.

UNION PACIFIC DIRECTORS.

Boston, March 27.—A special meeting of the directors of the Union Pacific was held this morning. A dart of the annual report

the directors of the Union Pacific was held this morning. A draft of the annual report was submitted, and in connection with it the question of resumption of dividends was considered. It appeared that the company carned during 1888 about \$2,400,000, which has been reduced \$800,000 through failure of the St. Joseph and Grand Island Railroad, the Oregon Railway and Navigation Company and the Central Branch to carn fixed charges, money to meet which the Union Pacific advanced. It was unanimously voted, under existing circumstances of the railroad situation, that it was inexpedient to resume the payment of dividends. The draft of the report was then referred back to the Executive Committee to be perfected and submitted to the stockholders.

THE CONSERVA.

Little Doubt of Her Loss Off the Virginia Coast.

New York, March 27.—[By the Associated Press.] There is little doubt now that the Conserva is the ill-fated ship which strewed the Virginia coast last week with the wreckage of her timbers. Notwithstanding reports to the contrary, the Conserva was unseaworthy. It is said by Offer, who was engaged for the trip, but who declined to go after finding out the condition Little Doubt of Her Loss Off th

pert vacutament of New York, was also on board.

The general belief here is that the Conserva sunk with all on board, though Henry Kuhnhardt has a different theory. He believes that if the Conserva collided with another vessel, she would not be cut in two, but that the other vessel would be. He thinks the Conserva's boats were lowered to help persons on the other vessel, and abandoned on account of the heavy sea. He thinks the white chairs and sofas found belonged to the steamer Nanticoke, not to the Conserva. The latter's furniture is painted in colors.

BOUNDARY COMPLICATION HINTED AT.

Alleged Need of the Rectification of the Boundary Line Between the United States and Mexico-A Wail from the Mines.

ENSENADA (Mexico), March 26 .-[Special Correspondence of THE TIMES.] The troubles of the International Company are increasing on every hand, and the chances are that the wealthy Englishmen who have invested here will fold their tents and away across the minds of those best informed but that the whole scheme will prove to have been a mistake on the part of those now most deeply interested. There seems no end to the complications touching titles in Lower California, and this fact is alarming California, and this fact is alarming the English syndicate. The company is unpopular with the Mexicans and Americans as well, and the Mexican authorities are unpopular with the company. There is a great lack of brotherly love on all hands, and the unfriendly feeling is increasing constantly. The United States should, by all means, buy the whole of this peninsula. True, it is not a very valuable piece of land, but Uncle Sam has got the money, and ought to make the purchase. Investigation has led us to believe that the line between the two countries should be drawn the purchase. Investigation has led us to believe that the line between the two countries should be drawn about 60 miles below Yuma, giving the United States, in that case, a large strip of territory extending from the Colorado River to the Pacific Ocean. It is claimed that the towns of Ensenada and Real del Castillo, the San Rafael, Guadalupe and Palmas Vallies, and all the territory for 60 miles south of the present boundary line, are all rightfully within the United States. It is asserted that the treaty of Guadalupe Hidalgo fixes the boundary line between the United States and Mexico at the mouth of the Colorado River, and that the commissioners were deceived by inaccurate maps, wherein the Gila River was described as the Colorado River, and in consequence the initial point was fixed near Yuma, when it should have been at Point Isabel, about 60 miles below. A rectification of the boundary line in accordance with the provisions of the treaty would, it is claimed, give the United States about 60 miles of the most valuable portion of the peninsula of Lower California. The Mexican Government may claim that over forty years of acquiescence in the boundary line as run gives it a title by proscription to the land involved, but there is no international law of limitations, and if Mexico has for forty years exercised a jurisdiction over territory which was not rightly within her limits, such wrongful dominion created for her no rights.

If the question is not sooner mooted,

Jurisdiction over territory which was not rightly within her limits, such wrongful dominion created for her no rights.

If the question is not sooner mooted, it is expected that a resolution will be offered in the American Congress next fall, looking to the establishment of a boundary commission to correct the line between Mexico and the United States. Such a change as the one contemplated would ruin the International Company, and this, we have reason to believe, it fears.

The roads leading out of the Santa Clara mining districts are thronged with disappointed prospectors, and "we are all going home." A few days ago we built castles in the air, we fancied our ships on every sea, and were the possessor of riches untold. "A million all in gold" was a small sum. But, alas! we are going back with our shoes worn out, our clothes are ripped and torn, the ampler parts of our pantaloons are full of holes, our boyish face is bronzed and covered with hair, our nose is peeled off; our tobacco and cigars all gone, and our money and drinks exhausted. Our knees and elbows are out, and the crown of our dear old hat, together with a handful of hair, went down the throat of a hungry jackass early this morning. We have "rheumatiz" in our left leg, and, for the same cause, our right arm is in a sling. Even the chambermaid at the hotel seems to take no interest in us.

PASADENA NEWS.

ENTATIVE CITIZENS TALK OBSERVATORY

At the Opera-house-Interesting Local Budget-Citizens Offer Lots to the Observatory Project-Per sonal News and Notes.

PASADENA, March 27 .- [Correspondof THE TIMES.] A meeting of ntative citizens was held in the iton Hotel parlors at 3 o'clock this afternoon. The attendance was very arge, and included lawyers, bankers, en, politicians, merchants e agents and retired citizens real-estate agents and retired citizens The object of the call was to confer with Rev. M. M. Boyard in the matter of the proposed observatory on Wilson's Peak. The gathering was called to order by the appointment of Hon. Delos Arnold as chairman. Speeches were then in order, and Rev. Bovard was called to his feet, who gave a lengthy résumé of the work proposed and an outline of what was to be accomplished, a detailed account of which was published in last week's TIMES.

The observatory, Dr. Bovard said.

The observatory, Dr. Bovard said, would be built, and the telescope have a 40-inch lens. The contract would have been made for the glass when Mr. Clark was here, but the price had not been agreed upon, and it was decided to wait a little longer to secure a more favorable price. Mr. Clark is now at work upon the proposition, and the matter is left in their hands. I expect an answer from him, and we expect to answer from him, and we expect to take the glass and have Mr. Clark go to work on it at once upon its delivery. The crown glass will not be worked until after November, and two years will be required to secure both glasses will be required to secure both glasses for mounting. This work we have begun is not an experiment, nor will we back out and finish up everything in substantial shape. I come to you, gentlemen, if you are interested, to take up the work in an earnest way, and you can contribute largely to the grandeur of the success. We think Wilson's Peak is the best place, and have said so before anything was made public to you. This is an enterprise to accomplish the work, and we want all men to become interested in it, as it is a great advantage to this valley. I believe the refiex action of the study of that science will be of such a character as not to be estimated in money value. I believe it will touch our educational systems, and make our schools throb systems, and make our schools throb with new life. We ought to raise \$100,000 in this city to back the enterprise. This is the proposition I came out to talk to you about. The observatory at this time does not ask for money, but it needs a big endowment. We want the money in valuable property, and you can place your own values on it.

In relation to the carriage road, the mountain must be made accessible. The public would be sufficiently interested to build the road, and many gen tlemen of Los Angeles are in harmon

rith the work.

Rev. E. L. Conger thought a business reposition should be entered into, and committee be appointed to formulate he proposition, with its conditions satisfactory to both parties, and report the conference at enother

isfactory to both parties, and report the result of the conference at another mass meeting. Mr. Conger then made a motion to that effect and that the committee consist of five persons.

A general discussion followed, during which brief addresses were made by Dr. Conger, who more than favored the project, and in conclusion offered a thousand-dollar lot to help on the enterprise; by Dr. Reid, who seconded the motion just made but who wished to be enlightened in regard to what surveys had been made; by Dr. Channing, who gave an outline but who wished to be enlightened in regard to what surveys had been made; by Dr. Channing, who gave an outline of the road; and by B. S. Eaton, who has charge of the work already begun. Superintendent Eaton said there were two feasible routes to the peak, and their distances varied by about two miles. Mr. Eaton concluded his address by giving an outline of the scenery en route by way of the proposed roadway, which he described as beyond the earthly and having no equal in the world. No danger is apprehended from slides, but the roadbed is necessarily narrowed in many parts. Mr. Eaton further stated that everything for the smaller telescope was on the top. [Applause.] The entire cost for transportation amounts to about \$1000, which has been provided for by public enterprise.

Dr. Conger said that a guitable site

to about \$1000, which has been provided for by public enterprise.

Dr. Conger said that a suitable site for the building near the foot of the mountain had been promised by a well-known citizen. Prof. Dickinson said he was consulted a great deal about the telescope, and, having a great interest in the subject, asked a number of questions of Dr. Bovard for enlightenment in the matter of endowment. in the matter of endowment. Mr. Dick-inson thought the best place should be sought and the present glass first shown to be able to do the work in its place before the 40-inch lens should be

placed.

The motion was put to a vote and passed. An amendment was passed that Hon. Delos Arnold, chairman of this meeting, and W. U. Masters, president of the Board of Trade, be two of the committee.

ident of the Board of Trade, be two of the committee.

After speeches were made by Rev. P.

F. Bresee, Councilman McLean and Father Throop, the last-named gentle-man offering a lot to help along the good work, on motion, the report of the work already done was received and an adjournment taken. adjournment taken. LOCAL MENTION.

BURLINGHAM (N.Y.), May 31, 1886;

G. G. Green—Dear Six: I am frequently troubled with severe colds, and the only remedy that will relieve me of them is your loschee's German Syrup. I have used it for more than twelve years. It is a constant household companion with me. Our merchant here procured it first at my solicitation, and says he has sold a great many bottles. It is a very popular remedy in this section. Every person who has used it speaks in the highest terms of its merits. I do not know of a single case it has not cured. I first used it in Vermont, where I lived before coming here. I radvise every one to use it, as it is certainly the best cough medicine I have ever known. I have tried nearly all of them at different times. Yours respectfully. Plums, Cherries, Persimmons, Raisins and Table Grapes, Loquata, Quinces, Apricota, Olives, English Walnuts, Chestnuts and Peanuts, as well as Grain and Vegetables of all kinds, grow to the highest degree of perfection WITHOUT IRREATION. The soil is a deep, rich, sandy loam. An inex-baustible supply of water. Mr. Milton Thomas and Mr. Byron O, Clark, the will known and experienced nurserymen, have purchased large tracts of these lands and planted them to orchards. They reward them as the very best lands in Los Angeles county for the cultivation of all kinds of deciduous fruits, olives and English walnuts, and owing to their near proximity to Los Angeles city, the cheapest lands in Southern Crilferna at the price they are now ofered. It costs nothing to examine these lands.

NEW YORK, March 27.—The stock market started out this morning with a burst of activity, which, however, soon died away, and the usual dullness ensued, with a decline from the high prices of the opening. The result of the day's operations, however, is to leave a great majority of the list fractionally higher, with a few marked gains. The close was quiet but firm and generally at close to the opening figures.

The more advanced symptoms are wasting of flesh, diarrhoes, chills and fever, night sweats, expectorations of yellow pus from the ulcers or cavities in the lungs, with or without a depression in the chest, increasing weakness, and at last a closing up of the air passages of the lungs, causing strangulation or suffocation of the patient for want of power to expectorate the muien from the lungs.

CONSTITUTION AL CONSUMPTION.

By this we mean tubercular or blood consumption. It is a disease inherited from our proper, and not on the nuceous surface, as in the local kind. The taberdies at first consist of a cheery substance, in yellowish friable masses, after which they form small granules (like millet seed, blush-white and semi-transparent. Later in the disease this morbid matter becomes diffused uniformly throughout the tassues.

SATEENS.

It's only modest to say that our house is the Sateen Mecca. Saturday there came to us, in all their shimmery glow, some 200 purple-veined and plebeian pieces. They are the bright ideals of striving artists who tarry beneath delicate skies for the sake of stealing tints to toss upon the glossy grounds of these satiny stuffs.

It was thought last season that Sateens had attained the apogee of perfection and popularity, but the first preparations of the present is full of sateen suggestions that show advanced ideas. Besides these imperial and regal weaves designated by us as "purple-veined," there are those of a cheaper caliber—which are plebeian only in price. As to appearance, they are as aristocratic and proud as the haughtiest arrivals from France. They grade low in cost, but are not less lovely in looks. Surfaces, soft and subdued in tone, holding twice the half of every known bit of Sateen elegance. Fibers of these queenly qualities are queerly filigreed into forms quaintly beautiful, as if the loomsmen had filched their fancies from the woods on a summer day. fancies from the woods on a summer day.

GINGHAMS.

They have been wreathed as the worthiest of all the washables. Their realisent stripes are not racy with a melange of unreasonable color contracts. Nor do their designs enmesh the wizardly conceptions of those sturdy weavers from the bonnie bracs of Ayr, who, as they hum homely airs, dye into cloth figures weird enough to abash the lovers of Burns, whose swart imagination created Tam o' Shanter and a witch of Cutty-sark. We tell you their true history. Not our siyle to show you a gingham holding the aroms of Rhode Island or savoring of Massachusetts and ask you to accept it as the flavor of highland heather. Those progressive Yankees are spinning Georgia staple and staining their fleece with colors which have never before graced Ginghams.
